SUMMARY

Experienced and innovative full-stack developer skilled in multiple programming languages and agile methodologies. Proven ability to deliver high-quality software on time and within budget while collaborating effectively with cross-functional teams.

EXPERIENCE

Web Developer

XEAM VENTURES PVT LTD

January 2023 – Present, Mohali, Punjab

- Collaborated with clients to understand their technical needs and provide software solutions tailored to their specific requirements.
- Collaborated with cross-functional teams to ensure a seamless development and delivery process.
- Assisted in developing and maintaining the codebase for mobile and web applications to ensure seamless functionality across multiple platforms.

Backend Developer Intern

Foformula – The Smart Way

August 2022 – November 2022, Remote

- Developed database schemas and MongoDB to store and manage application data.
- Conducted thorough testing of the APIs and databases to ensure data integrity, reliability, and scalability.
- Implemented security measures such as encryption and authentication to protect sensitive data.
- Developed and integrated APIs for payment gateways such as Razorpay and Cashfree using Node.js, ensuring secure and efficient payment processing, which resulted in a 25% increase in completed transactions.

MERN Stack Web Developer

Padhakku Peek A Book Pvt Ltd

September 2021 – November 2021, Remote

- Designed and developed a website for the company using React that improved their online presence and increased customer engagement.
- Collaborated with the QA team to ensure the application met quality assurance standards, resulting in a bug-free release.
- Effectively developed a full-stack web platform with ReactJS, resulting in a 20% increase in website traffic and a 25% decrease in load time.
- Designed and implemented responsive, mobile-friendly UI components that improved user experience and accessibility.

Full Stack Web Developer

Indian Street Bets

April 2021 – August 2021, Remote

- Developed the Option Strategy Builder using AngularJS and Flask.
- Decreased the loading time by 82% through Asynchronous calls using Ajax and Google Sheets API for fetching real-time data.
- Increased monthly user engagement by 30% by devising various strategies which processed, analyzed, and rendered the data visually on a chart.

PROJECTS

Stock Watchlist

PEC ACM Student Chapter • January 2022 – Present

- Maintained and contributed to Stock Watchlist, a mobile application that allows users to track and monitor stocks in real-time.
- Reviewed and merged 22 pull requests, responding to 33 issues and providing guidance to contributors.
- Conducted regular code reviews, ensuring the codebase met high standards of quality and completeness.

EDUCATION

B.Tech in Electronics and Communication Engineering

Punjab Engineering College • Chandigarh • 2024 • 7.66 CGPA
